FOR IMMEDIATE RELEASE

Honey Wafer Baking Company, Inc.

HONEY FILLED WAFER THINS – NOW KOSHER  
Honey Wafers deemed pure by the Chicago Rabbinical Council

Crestwood, IL -March 30, 2008- Adhering to their longstanding tradition of quality and purity, the Honey Wafer Baking Company announces both Original Honey Filled and Chocolate Filled Wafer Thins are Kosher Certified.

Rabbi Dovid Oppenheimer of the Chicago Rabbinical Council supervised the Kashruth certification, inspecting the ingredients, equipment and production process to ensure they meet the Kosher standards. Honey Wafers will now bear the cRc and pareve logos; pareve indicates that the product is dairy free. No change was made to the original recipe to attain certification.

Two crispy light 8 inch wafer rounds are hand-sandwiched together with a distinctive honey candy filling, creating a treat entirely individual to the ready-to-eat snack food market.
